## About InPharm

InPharm Association – A Young Pharmacists Group of India ([www.inpharm.org](http://www.inpharm.org)), a scientific and educational society founded in 2003. It has contributed in different ways to the advancement of Pharmacy. Its members share interests related to Pharmacy, which they learn through *Communique*, *Journal of Young Pharmacists* and *Systematic Reviews in Pharmacy* are official publications of InPharm Association.

## About Journal

**Systematic Reviews in Pharmacy** (Sys Rev Pharm.), a half yearly publication from the InPharm Association, serves the need of different Pharmaceutical research and development. Each issue covers review articles on Drug discovery topics, and also publishes full length research in pharmacy and that are of broad readership interest to users in industry, academia, and government.

All contribution to Sys Rev Pharm are reviewed by peer review process and copyediting process with the understanding that they have not been under consideration for publication elsewhere. Author/s is/are responsible for all statements made in their work and obtaining necessary permission for previously published illustrations and/or other relevant materials. The journal allows free access (Open Access) to its contents and permits authors to deposit an accepted version of the articles on any OAI-compliant institutional / subject-based repository.

## Scope of the Journal

The journal will cover ONLY INVITED REVIEW ARTICLES related to Pharmacy subjects including some of the allied subjects. Articles with original research concepts will be given more preference. Research articles can be submitted to *J Young Pharm*.

If you wish to write a review for the journal, please send details of the topics you wish to review along with your credentials in the subject.

## Editorial Policy

Authors should prepare their manuscripts submitted to the journal exactly according to the instructions given here. Manuscripts which do not conform to the journal may be returned to the authors for revision or rejected. The journal reserves the right to make any further formal changes and to accept a manuscript accepted for publication so that it conforms to the formatting requirements of the journal. Manuscripts and figures are not returned upon rejection of the paper.

## The Editorial Process

A manuscript will be reviewed for possible publication with the understanding that it is being submitted to *Systematic Reviews in Pharmacy* and has not been published anywhere, simultaneously submitted, or already accepted for publication elsewhere. The journal expects that authors will correspond with the Journal for all matters related to the manuscript. All manuscripts received are duly acknowledged. On submission, manuscripts are sent to reviewers initially for suitability for formal review. Manuscripts with insufficient originality, serious scientific or technical flaws, or lack of interest before proceeding for formal peer-review. Manuscripts that are unlikely to be of interest to the *Systematic Reviews in Pharmacy* readership are rejected at the stage itself.

Manuscripts that are found suitable for publication in *Systematic Reviews in Pharmacy* are sent to two or more expert reviewers. During the review process, authors are requested to provide names of two or three qualified reviewers who have had experience in the subject of the submitted manuscript, but should not be affiliated with the same institutes as the contributor/s. However, the selection of these reviewers is at the sole discretion of the journal. The journal follows a double-blind review process, wherein the reviewers and authors are unaware of each other's identity. Every manuscript is also assigned to an editor who based on the comments from the reviewers takes a final decision on the manuscript. The comments and suggestions (acceptance/rejection) received from reviewers are conveyed to the corresponding author. If required, the author is requested to provide a point-by-point response to the comments and submit a revised version of the manuscript. This process is repeated till reviewers and editors are satisfied with the manuscript. Manuscripts accepted for publication are copy edited for grammar, punctuation, print style, and format. Page proofs are sent to the corresponding author who is expected to return the corrected proofs within three days. It may not be possible to incorporate corrections received after that point. After the submission of the manuscript to final decision and sending and receiving proofs is completed online. To achieve faster and greater dissemination of information, the journal publishes articles online as 'Ahead of Print' immediately on acceptance.

## Article Processing Charges

*Systematic Reviews in Pharmacy* is an Open Access Journal of InPharm Association. Due to high publishing cost and other financial

clearing in peer review process or upon acceptance, Authors are required to pay a minimum of **Rs. 2500/- (Indian Authors) and 15** pre-press charges to **Medknow Publications and Media Pvt. Ltd, Mumbai** (this cost is for a standard length article i.e., 1-6 pages and incur higher charges). The pre-press charges should reach within 15 days of the acceptance mail notification. Failure to pay pre-press charges will result in article cancellation and re-pagination. Upon acceptance, payments can be made via <http://www.journalonweb.com/srp> or by sending DD/Cheque should be in favour of **Media Pvt. Ltd."** payable at Mumbai, INDIA  
**[w.e.f 17th December, 2011]**

**Final article layout:** Above charges are applicable for a minimum of 1-6 pages. For more than 6 pages, add charges, of Rs. 35 USD[Foreign authors]/extra page.

#### **Why do we charge?**

This journal is an Open Access, where the content is free to read. The journal is non-commercial and currently, it is self-financing organizations. Cost is being absorbed only with subscriptions. Hence, a nominal cost will be levied to cover the cost of the following

- Journal hosting systems [Medknow Publications and Media Pvt. Ltd., Mumbai]
- Manuscript submission systems [Journalonweb.com]
- In-house copyediting and linguistic support
- Pagination & typesetting
- Inclusion in Crossref, giving a permanent DOI and enabling easy citation in other journals.
- Archiving in Pubmed, where appropriate, in an internationally recognized, open access repositories.

Send covering letter stating article title, manuscript number along with DD/cheque to

- **The Editor, Sys Rev Pharm. c/o Medknow Publications and Media Pvt. Ltd.**B-9, Kanara Business Centre, Off Link Road, Ghansoli, Mumbai, INDIA.

**Note : InPharm Members will get 50 % discount on pre-press charges.**

#### **Authorship criteria**

Authorship credit should be based only on substantial contributions to each of the three components mentioned below:

1. Concept and design of study or acquisition of data or analysis and interpretation of data;
2. Drafting the article or revising it critically for important intellectual content; and
3. Final approval of the version to be published.

Participation solely in the acquisition of funding or the collection of data does not justify authorship. General supervision of the research project does not justify authorship. Each contributor should have participated sufficiently in the work to take public responsibility for appropriate portions of the content of the manuscript. Authorship should be based on the relative contribution of the contributor towards the study and writing the manuscript. Once submitted, the manuscript should not be altered without written consent of all the contributors. The journal prescribes a maximum number of authors for manuscripts depending upon the number of institutions involved (vide infra). The authors should provide a justification, if the number of authors exceeds these limits.

#### **Contribution Details**

Contributors should provide a description of contributions made by each of them towards the manuscript. Description should be divided into concept, design, definition of intellectual content, literature search, clinical studies, experimental studies, data acquisition, data analysis, manuscript preparation, manuscript editing and manuscript review. Authors' contributions will be printed along with the article. One or more authors should be designated as 'guarantor' to ensure the integrity of the work as a whole from inception to published article and should be designated as 'guarantor'.

#### **Conflicts of Interest/ Competing Interests**

All authors must disclose any and all conflicts of interest they may have with publication of the manuscript or an institution or product that is important to the outcome of the study presented. Authors should also disclose conflict of interest with products that compete with the manuscript.

#### **Submission of Manuscripts**

Manuscripts must conform to the "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" <http://www.icmje.org/>. Manuscripts must be written in English and submitted exclusively to SRP. Manuscripts must be typewritten (double-spaced) with liberal margins and space at the bottom of the page. All manuscripts must be submitted on-line through the website <http://www.journalonweb.com/srp>. First time users will have to register at the website. Registered authors can keep track of their articles after logging into the site using their user name and password. Authors have the right to withdraw or publication of articles. If you experience any problems, please contact the editorial office by e-mail at editor [AT] sysrevpharm[DOT] org

#### **Covering Letter**

Disclose all possible conflicts of interest (e.g., funding sources for consultancies or studies of products). A brief indication of the importance of the study to the Pharmacy is helpful in gaining appropriate peer review.

## Copyright Form

The contributors' / copyright transfer form (template provided below) has to be submitted in original with the signatures of all the contributors via courier, fax or email (copyright AT medknow DOT com) as a scanned image. Print ready hard copies of the images (one set) or digital images should be submitted to the journal office at the time of submitting revised manuscript. High resolution images (up to 5 MB each) can be sent by email on images AT medknow DOT com.

The hard copies of the Contributors' form / copyright transfer form may be sent to the following addresses or submitted online from the at [www.journalonweb.com/srp](http://www.journalonweb.com/srp)

## Preparation of Manuscript

Your Manuscript should be typed, double-spaced on standard-sized – paper (8.5" x 11") with 1" margins on all sides. You should use 12 pt font size. You should take care over the fonts which are used in the document, including fonts within graphics. Fonts should be restricted to **Times New Roman** and **Dingbats**.

Title : Should be in Title Case ; The first character in each word in the title have to be capitalized.

A review paper typically should include in the following order

- Abstract
- Keywords
- List of Contents
- Abbreviations (Compulsory)
- Introduction
- Review on Topic mentioned in title
- Conclusion
- Acknowledgements (If any)
- References
- Tables and/or Figures
- Notes (If any)

### Abstract – Limit of 250 Words

A brief summary of the review topic. The abstract should include a brief introduction, a description of the hypothesis tested, the approach used, the results seen and the conclusions of the work.

### Key words

Please, write no more than six keywords. Write specific keywords. They should be written left aligned, arranged alphabetically in 12pt Times New Roman with the words Keywords boldfaced. A 12pt space should separate the keywords from the affiliations.

### List of Contents

A table of contents specifying the sections and subsections should be supplied.

### Abbreviations

Abbreviations should not be present in the title of manuscript. They can be used in the running title and text of manuscript. All abbreviations should be defined in the text unless the term is better known as an abbreviation. Provide list of abbreviations alphabetically before starting the manuscript.

### Introduction

Description of the research area, pertinent background information, and the hypotheses tested in the study should be included under this heading. Provide sufficient background information such that a scientifically literate reader can understand and appreciate the experiments to be described. Do not include in-text citations including references to pertinent reviews and primary scientific literature. The specific aims of the project should be stated at the end of the introduction. The specific experiments and other work performed.

### Review on Topic/Conclusion

This section should relate the results section to current understanding of the scientific problems being investigated in the field. Descriptive work/s in the field should be included here. This section also allows you to discuss the significance of your results - i.e. does the data support the hypothesis? This section should end with new answers/questions that arise as a result of your work.

### Tables and Figures

#### Tables

Each table must start on a separate sheet. They should be numbered with Roman numerals according to their sequence in the text, and headed. Use SI units. Tables should include vertical rules, but horizontal rules should separate column headings from the content. Author should follow the layout of the journal when designing tables. Tables that fit onto one printed page are preferred. Detailed explanations of symbols, units, etc. should be given below the table.

#### Illustrations

Figures for final production should be submitted as electronic files and hard copy so that the editorial office can ensure that the output of hardcopy. Please pay particular attention to the guidelines below. The editorial office cannot undertake preparation of manuscripts and illustrations. Manuscripts of insufficient quality will be returned immediately without refereeing. A high standard of illustration (both line and photograph) should be prepared for printing to fit 80 x 240 mm (column width) or 169 mm by up to 240 mm (full page) size. It is preferred that authors keep in mind that the caption will be placed underneath the figure. In the event that full-page length is necessary for plate adjacent pages. Figure(s) must be numbered consecutively in the text. Compound figures with more than one micrograph or photograph should refer to (e.g. Figure 1), and individual parts should be labeled with capitalized letters in the lower left-hand corner. Lettering should be in serif fonts such as Arial with a minimum published size of 4.2 mm (12 pt). Descriptive labeling in the figures should be clearly readable, and a published size of 6 pt (2.1 mm) for labeling items on photographs or in line art is recommended and a maximum size of 10 pt is suggested for magnifications and place in the lower right corner if possible. Computer prepared photographic images must be at a minimum of 350 dpi resolution will result in pixilation and poor quality images. These should be submitted as JPEG, TIFF or PPT files, but encapsulated postscript is acceptable.

Computer drawn figures are accepted provided they are of high quality. Please note that graphs produced by many statistic packages are of poor quality on axes and captions are often poor. Such figures should be exported into an accepted graphics package and lettering rendered in a serif font. Note that .dot, .bmp, and .pat fills should be avoided. Do not use postscript fill patterns as these are often based on bit map patterns that do not reproduce well in final reproduction. When filling illustrations, use fills such as lines, tints or solids. Line width minimum is 0.25 pt (0.09 mm). Also avoid the use of patterns and detail. Text should be saved as text at a minimum text size of 6 pt (2.1 mm). Please submit line art as Corel Draw, Adobe Illustrator, or Encapsulated Postscript, minimum resolution of 800 DPI at publication size. High resolution may be necessary where fine line detail is present.

For graphs Excel graphs are also acceptable. Note that vertical axes must all be at the same scale especially where the paper compares several data sets. Graphs should be produced as separate figures. Avoid 3D plots when presenting 2D data.

### **Table and Figure captions**

Figure and table captions should be included at the end of the manuscript. Figure captions/legends should include a statement at the end of the caption indicating the reproduction size (e.g. at full page width, at column width). They should be double spaced and typed in the journal format. Explanations should be included in the text. Keep in mind that captions/legends will be placed below figures.

### **Acknowledgements – Limit of 100 Words**

This is a brief section crediting the people who have helped make your manuscript possible and who aided you in your work but are not included in the references. Mention all applicable grants and other funding that supported your work.

### **Page layout & styles**

Page size	Letter Portrait 8 ½ X 11
Margins	All Margins, 1cm
Page number	Numbered at bottom right
Footer / Headers	None
Title	14 pt Times New Roman, bold, centered.
Author and co-authors	12 pt Times New Roman centered, bold - author and all co-authors. The corresponding author should include an asterisk*.
Authors address	12 pt Times New roman centered - giving each authors' affiliation, Department/Organization/Address/Place/Country/email). Folk Author for Correspondence: 10pt Times New roman centered the corresponding (main) author is a must. It should be indicated by an asterisk and single spacing.
Abstract	12 pt Times New roman, full justification Normal - maximum 2 lines
Text	12 pt Times New roman, full justification – 1.5 line spacing between lines, 12 pt indentation
Heading	Major headings (ABSTRACT, KEYWORDS, INTRODUCTION, METHODS, RESULTS AND DISCUSSION, ACKNOWLEDGEMENTS) in upper case left-justified, 12 pt bold, Intermediate headings (Section headings) in sentence case, left justified, 12 pt
Tables	To be incorporated at the end of Manuscript

Correct

“Table 1 : Serum enzyme levels.....”

Incorrect

## Figures /Graphs

“Table No. 1 : Serum enzyme levels.....”

Figures may be embedded in your word document but they still require a program that allows you to save them as gif, jpg or tiff format. For any figures or other materials directly extracted from previous work you must have written permission from the publisher of that material. A copy of that permission release must be submitted with your manuscript. It is the individual author's responsibility to attain this permission. To be incorporated at the end of the manuscript with proper labeling.

Correct

“Figure 1 : Serum enzyme levels.....”

Incorrect

“Figure No. 1 : Serum enzyme levels.....”

## Graphs

To be included from excel, it should be editable.

Non – editable graphs will not be accepted.

All text should be fully justified. Please put all primary section titles in UPPER CASE letters and subheading in both Upper and Lower Case (for example, 1.0 Introduction; 2.0 Background). Do not use the tab key to indent blocks of text such as paragraphs of quotes or lists because it overrides your left margin with its own, and the tabs end up in mid-sentence.

## References

### Reference List: Author/Authors

References should be numbered consecutively in the order in which they are first mentioned in the text (not in alphabetic order). Identify legends by Arabic numerals in superscript with square bracket after the punctuation marks. References cited only in tables or figure legends should be numbered in accordance with the sequence established by the first identification in the text of the particular table or figure. Use the style of the example formats used by the NLM in Index Medicus. The titles of journals should be abbreviated according to the style used in Index Medicus. Use only non-indexed journals. Avoid using abstracts as references. Information from manuscripts submitted but not accepted should be cited in the text as "unpublished observations" with written permission from the source. Avoid citing a "personal communication" unless it provides essential information in which case the name of the person and date of communication should be cited in parentheses in the text. The commonly cited types of references are listed below. Types of references such as newspaper items please refer to ICMJE Guidelines ( <http://www.icmje.org> or <http://www.nlm.nih.gov/bsd/unif> )

Download a [PowerPoint presentation](#) on common reference styles and using the reference checking facility on the manuscript submission page.

### In-text citation examples

#### Correct / Acceptable Format

Natural products have proven to be a great source of new biologically active compounds. Thus, in an effort to discover new lead anti-malarial compounds, we screened plant extracts to detect secondary metabolites with relevant biological activities that could serve as templates for the development of new drugs. Several compounds have been isolated and characterized from many medicinal plants used in malaria endemic areas.<sup>[10]</sup> However, controversial data have been reported regarding the antiplasmodial activity, probably because of their structural diversity.<sup>[11-13]</sup> More recently, several flavonoids have been isolated from *Artemisia annua*,<sup>[17-20]</sup> two plants related to *Artemisia annua*, the famous traditional Chinese medicinal plant from which artemisinin is isolated.

#### Incorrect / Not accepted

Natural products have proven to be a great source of new biologically active compounds. Thus, in an effort to discover new lead anti-malarial compounds, we screened plant extracts to detect secondary metabolites with relevant biological activities that could serve as templates for the development of new drugs. Several compounds have been isolated and characterized from many medicinal plants used in malaria endemic areas. [10]. However, controversial data have been reported regarding the antiplasmodial activity, probably because of their structural diversity (11, 12, 13). More recently, several flavonoids have been isolated from *Artemisia annua* (15), two plants related to *Artemisia annua*, the famous traditional Chinese medicinal plant from which artemisinin is isolated.

#### Acknowledgements

All messages and reviews sent electronically will be acknowledged electronically upon receipt.

#### Publication/processing charges

Journal does not charge for submission or publication fee on article.

#### Submission of manuscript

Manuscripts always be submitted only by Web based Manuscript Submission Systems[WBMS] **PREFERABLY**.

**Note : Do not send hard copies/CDs, until you receive e-mail request from Editorial office.**

A timely submission, however, is not a guarantee that your work will be accepted for forthcoming publication. All submissions are peer re select group of reviewers. Please make sure that all guidelines are followed carefully. All the accepted articles will be queued for publicat issues based on the priorities set by the editorial board.

#### Important e-mails

Syst Rev Pharm

Queries : queries @ sysrevpharm. in

(Queries will be replied in two working days)

Other correspondence : editor @ inpharm . in

#### HARD COPY SUBMISSION

**Hard Copy of Manuscripts are not being accepted,**

**Submissions should be made by Web Based Manuscript Submission Systems ONLY**

**Visit :** <http://www.journalonweb.com/srp>

Check List before Submitting Manuscript

- Covering letter
- Copyright Forms (Scanned)
- Manuscript
- Illustrations (if any)

## AUTHOR CHECKLIST FOR SENDING PROOFS TO EDITORIAL OFFICE

In order to maintain quality and consistency in InPharm Publications, we ask you to perform the following checklist prior to submitting your

- Include the original, hard copy of Author's Transfer of Copyright signed by each author
- Thoroughly check the reference style as mentioned above.
- Thoroughly check the article for correct grammar, in particular: spelling of names, affiliations, any symbols, equations, etc.
- Submit a proof corrected with RED INK ONLY or as directed by the editor handling your manuscript.

Send the Corrected Proof (scanned), Copyright Transfer Form, Subscriptions (If any) with covering letter in a single envelope to the following

**Note :** e-mails with the forcibly/influential consideration, multiple queries on status, vicious language, offensive writings to Editor/Associate Manuscript.

### Status of Manuscript

The Editorial team will inform the status of submitted manuscript every 15th day of month directly to the corresponding author's inbox.

Dr. Mueen Ahmed K K : editor @ inpharm . in

## Contributors' form

**(to be modified as applicable and one signed copy attached with the manuscript)**

Manuscript Title:

I/we certify that I/we have participated sufficiently in contributing to the intellectual content, concept and design of this work or the analysis (when applicable), as well as writing of the manuscript, to take public responsibility for it and have agreed to have my/our name listed as

I/we believe that the manuscript represents valid work. Neither this manuscript nor one with substantially similar content under my/our name being considered for publication elsewhere, except as described in the covering letter. I/we certify that all the data collected during the study and no data from the study has been or will be published separately. I/we attest that, if requested by the editors, I/we will provide the data obtaining and providing the data/information on which the manuscript is based, for examination by the editors or their assignees. Financial interests exist or may be perceived to exist for individual contributors in connection with the content of this paper have been disclosed in the covering letter.

I/We hereby transfer(s), assign(s), or otherwise convey(s) all copyright ownership, including any and all rights incidental thereto, exclusively to the Journal. Such work is published by the Journal. The Journal shall own the work, including

1. copyright;
2. the right to grant permission to republish the article in whole or in part, with or without fee;
3. the right to produce preprints or reprints and translate into languages other than English for sale or free distribution; and
4. the right to republish the work in a collection of articles in any other mechanical or electronic format.

We give the rights to the corresponding author to make necessary changes as per the request of the journal, do the rest of the corresponding author act as the guarantor for the manuscript on our behalf.

All persons who have made substantial contributions to the work reported in the manuscript, but who are not contributors, are named in the manuscript. If I/we do not include an Acknowledgment that means I/we have not received substantial contribution from a contributor has been omitted.
